

International  
Consultancy & Development  
Solutions

for Microsoft Dynamics NAV  
and Business Central

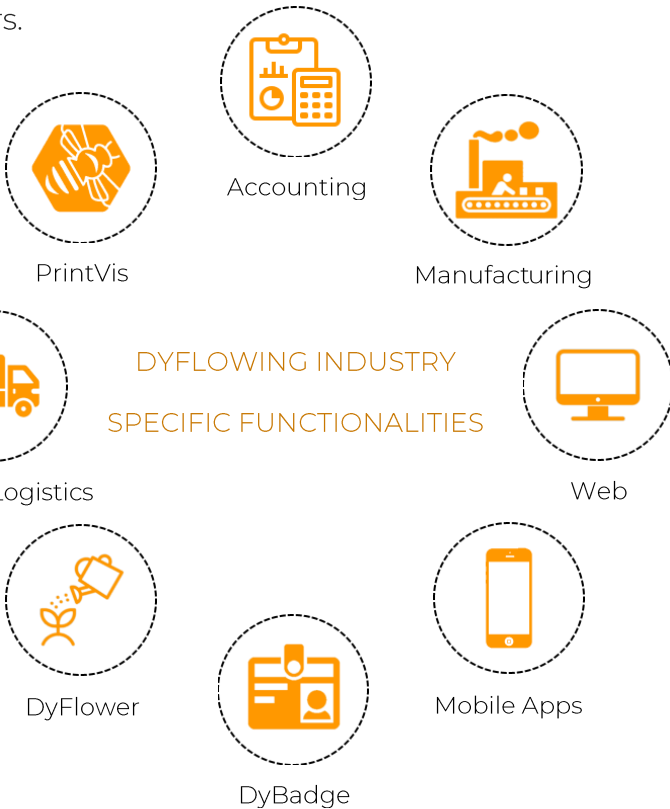

DyFlowing SRL is an innovative start-up settled in Milan and takes part of #ItalyFrontiers corporate register. Founded in June 2016 is specialized in Microsoft Dynamics platforms and consulting services.

### WHAT WE DO

Our mission is to bring customers a certified high-level product, based on Microsoft Dynamics solutions and help them in whole process flow with specialized consultancy and solution developments.

We deliver and manage international projects both in standard or specific vertical solution.

We offer a flexible, transparent and self-configurable maintenance plan based on a registered trademark evolved ticketing system that improve relationship with partners.

### WHO WE ARE

DyFlowing counts on a skilled team of developers and consultants specialized in Dynamics ERP and Microsoft Platform. We give help and support in accounting & financial matters, in manufacturing processes, in trade & logistic solution, in warehouse management, web and mobile apps.

We're focused on research and development of Industry 4.0, new kind of services and much more.

We believe in team working methodologies, ethic people, small stuff and smart work to be responsive, fast and cheap for the customers.

### SPECIFIC FUNCTIONALITIES AND VERTICAL SOLUTIONS

DyFlowing SRL is specialized in specific vertical solutions.
